| Reporting/Analytics Features                    | Analytics | Contact Centre<br>Supervisor / Wallboard |
|---|-----------|--|
| Reporting                                       |           |  |
| Call Lists (Segmented / Non-segmented)          | •         | •  |
| Calls by Number                                 | •         | •  |
| Calls by User                                   | •         | •  |
| Scheduling                                      | •         | •  |
| Reporting Filtering                             | •         | •  |
| Exports   | •         | •  |
| Dashboard                                       |           |  |
| Tiles (Single, Multi-Stat, Gauges)              | •         | •  |
| Charts  | •         | •  |
| Grids (User, Queue, Unreturned Abandoned Calls) | •         | •  |
| Images  | •         | •  |
| Agent / Queue Data                              | •         | •  |
| Make Call <sup>1</sup>                          | •         | •  |
| Live Call Data (In-progress Calls)              |           | •  |
| Update User Away States                         |           | •  |
| User Login/out                                  |           | •  |
| Silent Monitor                                  |           | •  |
| Wallboard                                       |           |  |
| Tiles (Single, Multi-Stat, Gauges)              | •         | •  |
| Ticker  | •         | •  |
| Video   | •         | •  |
| Images  | •         | •  |
| Agent / Queue Data                              | •         | •  |
| Live Call Data (In-progress Calls)              |           | •  |
| General Features                                |           |  |
| Recording Playback <sup>2</sup>                 | •         | •  |
| Call Costing                                    | •         | •  |
| Call Tagging                                    | •         | •  |
| Directories                                     | •         | •  |

<sup>1</sup> To use Make Call from a grid, the logged in user must be a 3CX PBX user. <sup>2</sup> Recording playback is currently only supported on Google Cloud Storage.

## **3CX Requirements**

\*For updates on supported versions, please refer to the online documentation: https://www.dimensionstechnologies.com/support-3cx

## Note:

A user account for the Dimensions Collector is required on the 3CX system with Admin/Recording playback permissions. See documentation for further information. 3CX do not currently support 3rd party access to their API. Dimensions Technologies Limited cannot guarantee that access to the API will not be withdrawn by 3CX in the future.
